---

**\*\*Lunch provided for the first 30 people registered \*\***

Clean Start is a community education program designed to increase knowledge and awareness of the risks associated with substance use during pregnancy and how to find help locally.

This training will cover:

- The risks of substances are during pregnancy, and the effects on the fetus and infant
- Possible long-term effects for the exposed infants.
- What the problem looks like in our area.
- The importance of using birth control or other pregnancy prevention methods, especially if you are using alcohol or drugs.
- Local resources to get help or for more information.

Register at: <http://clean-start.eventbrite.com>
